How To Automatically Delete Junk Mail

1. From the **Tools** menu, select **Rules Wizard**.
2. Click **New**.
3. Select **Check Messages When They Arrive**, and click **Next**.
4. Click the box next to **With Specific Words In The Subject**.

5. In the bottom box, click on the underlined word **Specific Words**.
6. Enter the words that indicate junk mail to you. Click **Add** after each word or phrase. (For instance, words such as mortgage, viagra, and phrases such as "save up to".)
7. Click **OK**.

8. Click **Next**.
9. Click the box next to **Delete It**.
10. Click **Finish**.
11. Click **OK**.
